Dreamweaver Training
Dreamweaver CS6: Website Development

Why Dreamweaver?

With Adobe Dreamweaver CS6 you can quickly and easily design, develop, and maintain websites and web applications — from start to finish. Built for both designers and developers, Dreamweaver CS6 offers the choice of working in an intuitive visual layout interface or a streamlined coding environment. Intelligent integration with other Adobe applications ensures efficient workflow across your favourite tools.

Duration: 3 days

Class size: 10 students max

Times: 9:00am - 5:00pm

Price: *Refer to our website for current course and package pricing*

After the course?

Each student will receive:

• Certificate of completion
• Training manual
• 12 months FREE email support
• FREE class re-sit (if necessary)

Who Should Do This Course?

Anyone looking to build or maintain websites.

About The Course

During the 3-day course, the instructor will show participants how to build an entire mock website step by step. This provides the necessary experience, skills and confidence to build websites. Participants will receive a training manual for easy reference in the workplace.

Prerequisites

There are no pre-requisite for attending this course. However we strongly recommend that participants complete the Introduction to HTML course before attending this course; or have equivalent skills.

Content
